Additional Comments

1.	Additional Comments	<ul style="list-style-type: none"> • Excellent instructor, very good at recognizing when students didnt understand and restating the material in a way that made sense. • The teacher responds quickly to emails. Took his free time to help me understand the homework. • the book was terrible. and the course material made no seance for my degree. josh was the best teacher ever • I have always struggled with math outside of geometry. However, Joshua Miller made me not only understand the course material, but made class enjoyable. He is by far one of my top three math teachers ever and one of my favorite college teachers up to this point.
